Testing
Cucumber, Junit, Selenium, Jasmine, TestRail

Security
OAuth2, Keycloak, Spring Security

WORK EXPERIENCE:

Full-stack Developer

Talogy Tech (PSI Online), Pittsburgh, PA - November 2021-Present

- Collaborated with UX/UI designers to enhance and implement responsive, user-friendly interfaces.
- Designed, developed, and maintained critical business applications using Angular, employing industry best practices and design patterns.
- Wrote clean, modular, and testable code using TypeScript, HTML, and CSS.
- Integrated and maintained RESTful APIs and services, contributing to efficient front-end to back-end communication.
- Collaborated with cross-functional teams to solve complex problems and deliver products to customers on time.
- Optimized application performance and scalability using advanced techniques like lazy loading, caching, and code-splitting.

Lead Software Developer

PNC Bank, Pittsburgh, PA - May 2018-November 2021

- Developed and maintained robust software tools using Java and the Spring Ecosystem, enhancing productivity across development and testing teams.
- Led the design and implementation of new features, significantly improving development efficiency and reducing time-to-market.
- Actively participated in Agile ceremonies, including sprint planning and review sessions, ensuring timely delivery of software products.
- Utilized Jenkins to automate build and deployment processes, enhancing continuous integration and continuous delivery efforts.

EDUCATION:

Cydeo Java Full-stack Developer Bootcamp - August 2017 - 2018

Pittsburgh, PA

- Engaging in an intensive, hands-on training program focused on developing skills in Java and modern web technologies, including HTML, CSS, JavaScript, Angular, and React.
