WORK EXPERIENCE

Talogy Tech - FTE   **Pittsburgh, PA**
Software Developer in Test   *Nov 2022 - Present*

- Implemented refactoring techniques on the existing test automation suite, improving code maintainability by 30%.
- Collaborated with cross-functional teams to identify and prioritize critical test cases for inclusion in the automation suite, resulting in a 20% increase in overall test coverage.
- Engaged in a dedicated self-study of C#, Azure cloud services, ASP.NET, and Angular to deepen my knowledge and improve my proficiency in application testing, enhancing my ability to deliver high-quality results.
- Worked closely with developers to create automated tests for new features, resulting in a 50% reduction in manual testing efforts and faster time-to-market.

Tata Consultant Agency (PNC Bank)-FTE   **Pittsburgh, PA**
Software Developer/Lead Test-Analyst   *May 2021 - Nov 2022*

- Developing & maintaining software tools used by over 50 QA Engineers, allowing them to access, reserve, and manipulate test data.
- Collaborating with the Product team to understand requirements & develop tools, which is increasing productivity by 15% and growing.
- Leading the Testing efforts of a team of 5 developers responsible for testing products before release.
- Successfully migrated product from Kanban to Agile methodology, ensuring a smooth transition and no loss in productivity.
- Analyzed features and requirements to write/automate UI Tests for a web application with 10 million users, which increased test coverage by 20%.
- Involved in both Web and Mobile testing projects using Appium. Wrote over 1000 test cases, which reduced the number of production bugs by 50%.
- Participated in Sprint Planning, Review Sessions & Scrum Meetings to provide input on achievable deliverables for each sprint.
- Utilized Jenkins to automate the execution of Smoke Tests several times a day, confirming essential functionalities worked as expected.
- Successfully designed and implemented a new Automation Framework for web-based applications, increasing efficiency by 25%.
- Developed Cucumber features to test the functionality of the application using Appium, Selenium WebDriver, and TestNG.
- Successfully reduced the number of customer-reported bugs by 15%.

EDUCATION

CYDEO Full-stack software development Boot Camp   **Jul 2023 - Present**
Java Core, Spring, Docker, MySql, JUnit, Mockito Bootstrap...

CYDEO Software Development Engineer in Test Boot Camp   **Dec 2019 - May 2020**
Java Core, Selenium, Cucumber, Karate, Appium, JUnit, TestNG, SQL, RestAssured, JDBC, Jenkins.

Mt. Lebanon High School   **2016 - 2019**
High School Diploma - AP Computer science/Java fundamentals.

SKILLS

Java, Spring Framework, SQL, HTML, CSS, Bootstrap, Tailwind, Next.JS, React, JavaScript, Selenium, Cucumber, Karate, Appium, JUnit, TestNG, RestAssured, JDBC, Jenkins, Git-based development, Excel, Jira, Jira-Xray.
