Jaden Stittsworth

Software Development Engineer in Test

101 Mount Lebanon Blvd
Pittsburgh, PA 15228
(412) 527-4078
jadenrs10@gmail.com

PROFESSIONAL SUMMARY

I am a Junior Software Development Engineer in Test with significant experience creating Selenium driven UI frameworks using Cucumber Gherkin BDD and TDD along with creating Selenium driven backend testing frameworks using Rest Assured and jsonschema2pojo for encapsulating JSON Response. I've also designed and implemented the CI/CD architecture for containerized applications deployed through Jenkins. Using Jira to follow the process and reach the accurate requirements. Lastly, I have proven experience familiarizing myself and working within existing frameworks, as well as adapting or modifying them as circumstances require for reporting and technical usability.

EDUCATION

Mount Lebanon Highschool, Pittsburgh PA —

August 2016 - June 2019

Graduated early with solid GPA and extensive real world experience sessions. Loved my AP Computer Science course with a passion and had to make it into a career.

Cybertek Schools, Virginia (Online Student)—

October 2020 – Present

Java Full Stack automation developer(SDET) program. Focuses on training IT professionals from the ground up. Started basics of Java to Selenium to SQL and on. By the End the program produces some of the sharpest Test Automation Engineers in the market.

Spring Boot Autodidact —

2020-Present

Started learning spring boot as a personal endeavor but after learning just a few of the possible uses I had to learn more. Studying usage to better understand and more easily integrate my work into frameworks using Spring boots libraries.

PROJECTS

SpotifyScripts — Automation Framework

A simple Cucumber-JUNIT Framework written in Java using Maven for dependency management. Demonstrating coding skill. Primarily the ability to test UI using a Singleton POM design pattern as well as API tests.

Personal Portfolio — WebSite

Hugo + Toha Theme using gitHub Actions workflow for automated deployments for Personal Resume Website(http://Jadenstittsworth-resume.com).

TECHNICAL SKILLS

Testing Tools: Selenium WebDriver, Selenium Grid, RestAssured, JDBC, Appium

Framework: Cucumber, Behavior Driven Development, JUnit, TestNG, Hybrid, Data Driven Development, Page Object Model (POM), Karate, Serenity

Languages: Java, SQL, HTML, Gherkin, XML, JSON

Platform: Windows, Mac OS, AWS, Windows Server

IDE: IntelliJ, Eclipse, Postman, Sublime Text

Databases: Oracle, MySQL, PostgreSQL

Build Tool: Maven, Jenkins

Deployment: Git, GitHub

Methodologies: Agile/Scrum, Waterfall

Test Management: Jira, Jira XRAY

Testing Methods: Functional, Smoke, Regression

Language: English(Native)

AWARDS

Currently Studying for the Following:

–AWS Cloud Services Certification

–OCA11 Certification

–Scrum Master Certification
